Subject: FW: Draft approval for requested extension....RE: Malibu High/Middle School: request for extension

Mr. Daugherty, I am hereby granting the Santa Monica Malibu Unified School District's (District) request for an extension until April 25, 2014 to submit the required PCB cleanup plan. We support granting the necessary time to involve the public in the preparation of the plan before submitting it to EPA for approval.

I look forward to meeting with the District during the second week of April. If you have any questions please call me. Thank you.

Subject: RE: Malibu High/Middle School: request for extension

Steve,

As mentioned in our letter, the District has requested that ENVIRON develop the requested plan(s) to be considerate of community input and comprehensive. In order to help meet these requests, ENVIRON is anticipating the following activities:

- As part of the DTSC PEA process, a community survey is currently planned to be sent out by the end of the month. ENVIRON plans to include a second survey to collect community input over indoor environmental concerns, including concerns related to the PCBs in caulk, at the same time.
- ENVIRON expects these community survey results back by middle of April.
- ENVIRON would then need some time to review the survey results and to consider the results from the community input in developing a comprehensive draft plan.

Given the approach and timing of the community surveys as described above, ENVIRON would need the requested extension in order to consider community input in a comprehensive draft plan. If an extension was not granted, any plan submitted would be limited in scope and would not be able to consider the community input described above.

Please let me know if you have any questions or need further information.
Regards,

Doug

Doug,

We are in receipt of your request. Please provide more information to justify a nearly one month extension. EPA is available to meet soon and more than once, so we do not expect a meeting with us to cause a delay. You mention obtaining community input and ensuring that the plan is comprehensive. Please elaborate more on these or any other factors to better justify the extension that you are proposing.

Thank you.

Steve,

Please find attached our request for extension that we have discussed with you previously. Please let me know if you have any questions or would like to discuss further.

Regards,
Doug
